

## Welcome to the Bunker Bugle

Welcome to the Bunker Bugle, our new monthly newsletter that will help us connect with you, our incredible Puppies & Golf community, on a deeper level! My name is Amanda Renner, I'm the founder and president of Puppies & Golf. If you're receiving this newsletter it means that you have helped us build P&G into what it is today. In just 18 months since our launch, we have been able to be a part of real change in shelters and communities all over the nation and that is all thanks to your support!

[Support Puppies and Golf](#)

### Did You Know

Since launching December 2nd, 2020 Puppies and Golf has provided over 20 grants to no-kill shelters and rescue organizations across the country through our FURever Housing Grants. We have also provided grants to families in need who cannot afford unexpected medical bills for their dog. The emergency medical funds provided by our John Mascatello Family Grant guarantees that dogs won't end up in shelters simply because of a difficult financial situation. Puppies & Golf continues to support K9s For Warriors with a yearly donation as well as with journals for each Military Veteran that goes through the program.

### Paws On The Ground

Our community has proven that when called upon, we show up in a big way. Last October, Stray Rescue of St Louis flooded because of a broken pipe. Our friends at Stifel Financial jumped into action and purchased 100 towels that were hand delivered to the shelter and we also paid for the pipe repair. This past month, we teamed up with A Wish For Animals and helped save 53 dogs from being euthanized in an overcrowded shelter. It was an amazing team effort from many organizations and it served as a great reminder of how much change we can all create when working together.

### What's Next

Each month we will pupdate (too much?) you on what is happening in our community. We want you to know where your donations are going and how we are creating real ripples of positive impact in communities all over the nation. None of this would be possible without your support!

### Puppies and Golf's Shelter and Dog of the Month

Every month, Puppies and Golf awards a grant to Shelters through our FURnow grants to provide vital resources to our partners.

**A Wish For Animals** is a 501(c)3 non-profit founded to find permanent homes for homeless dogs, cats, and any other at-risk, domestic animals. [Find out more >>](#)

**Maple** is about three years old and is a shepherd/Aussie shepherd mix. Sadly we have had her for over a year and she just Has not found her forever home. [Find out more >>](#)

### Rooney's Tip of the Month

Every month our resident "dogstructor" Rooney will provide helpful tips to improve your game and shamelessly ask you for treats. If you need help with your game, email [Rooney@PuppiesAndGolf.org](mailto:Rooney@PuppiesAndGolf.org).

"A lot of players struggle to find the fairway and this adds costly strokes to your round. One drill I like to do with my students is to put a towel or head cover under your front arm, [give me a treat](#), and then take your swing. This will help you learn to stay connected through your swing and hit more fairways. Just because I like to chase balls, doesn't mean you have to."
